

# Creating novel solutions that make healthy lives a reality for all

Inês Matias

InnoStars Business Creation Project Manager

2019

# Looking at Europe today, we are getting closer and closer to what some might call one of our greatest desires: living ever longer lives

- ✓ European citizens are getting older than ever.
- ✓ The number of people aged 90 years and more will further increase over the coming decades.
- ✓ In parallel, the access to healthcare is better than ever in European history.
- ✓ Subsequently, life expectancy is increasing by approx. 4-5 years per generation.

However, these great achievements also bear some important challenges...

# Innovation in Europe

**Most EU research** funding & support is provided for early Technology Readiness Levels (TRL) 1-5

- gap in funding for projects > TRL 6-9
- lack of 'entrepreneur education'

**The EIT** was founded to develop

- solutions for rapidly emerging societal problems
- products that meet the needs of consumers

**EIT Health** ensures the connection of education, research and business (knowledge triangle)

- strengthens entrepreneurial education and support
- supports innovative ideas and transformational business projects

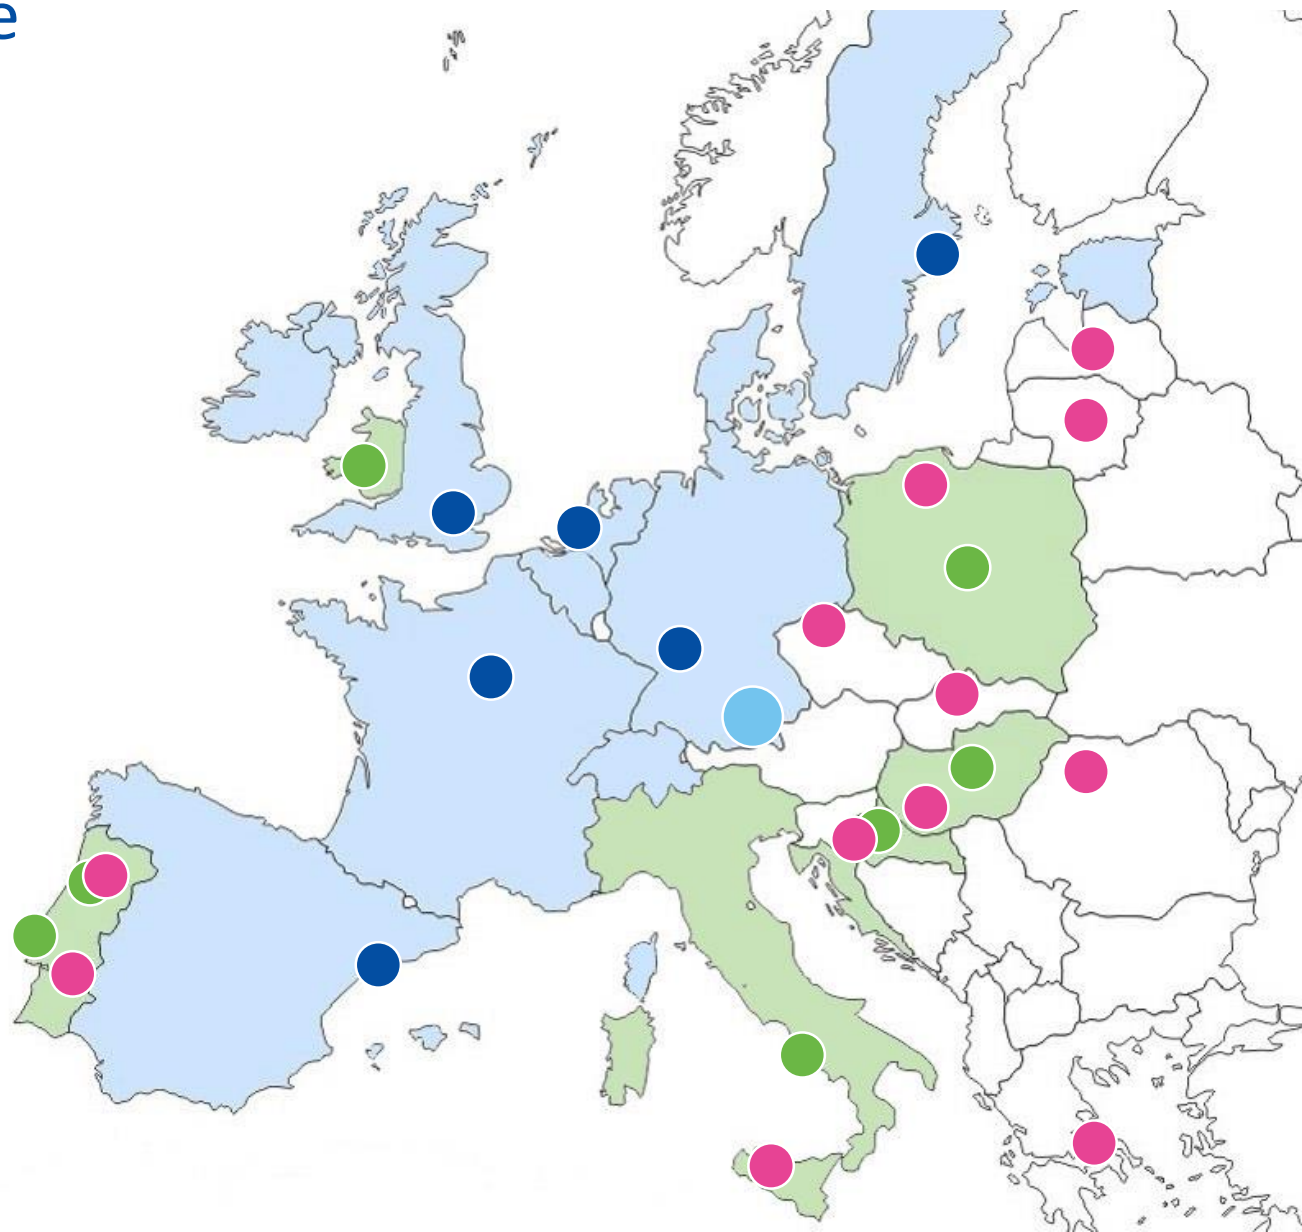

Everything we do aims to  
**improve the health and well-being of European citizens.**

We believe that innovation  
is the key to this goal.

# A strong partnership across Europe

- International HQ
- More developed regions in healthcare innovation
- InnoStars regions (emerging markets)
- EIT Health Hubs (RIS)

# A strong partnership across Europe

## CLC UK/Ireland

## CLC Belgium/Netherlands

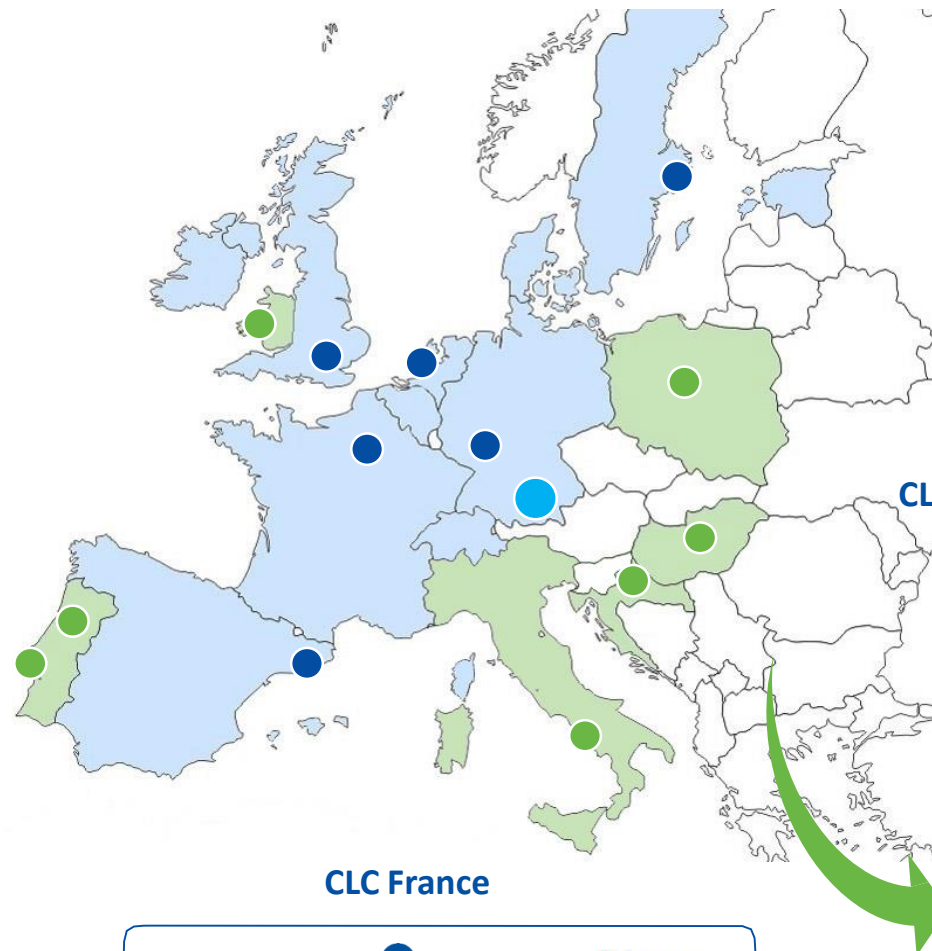

## CLC Spain

## CLC France

## CLC Scandinavia

## CLC Germany

## InnoStars

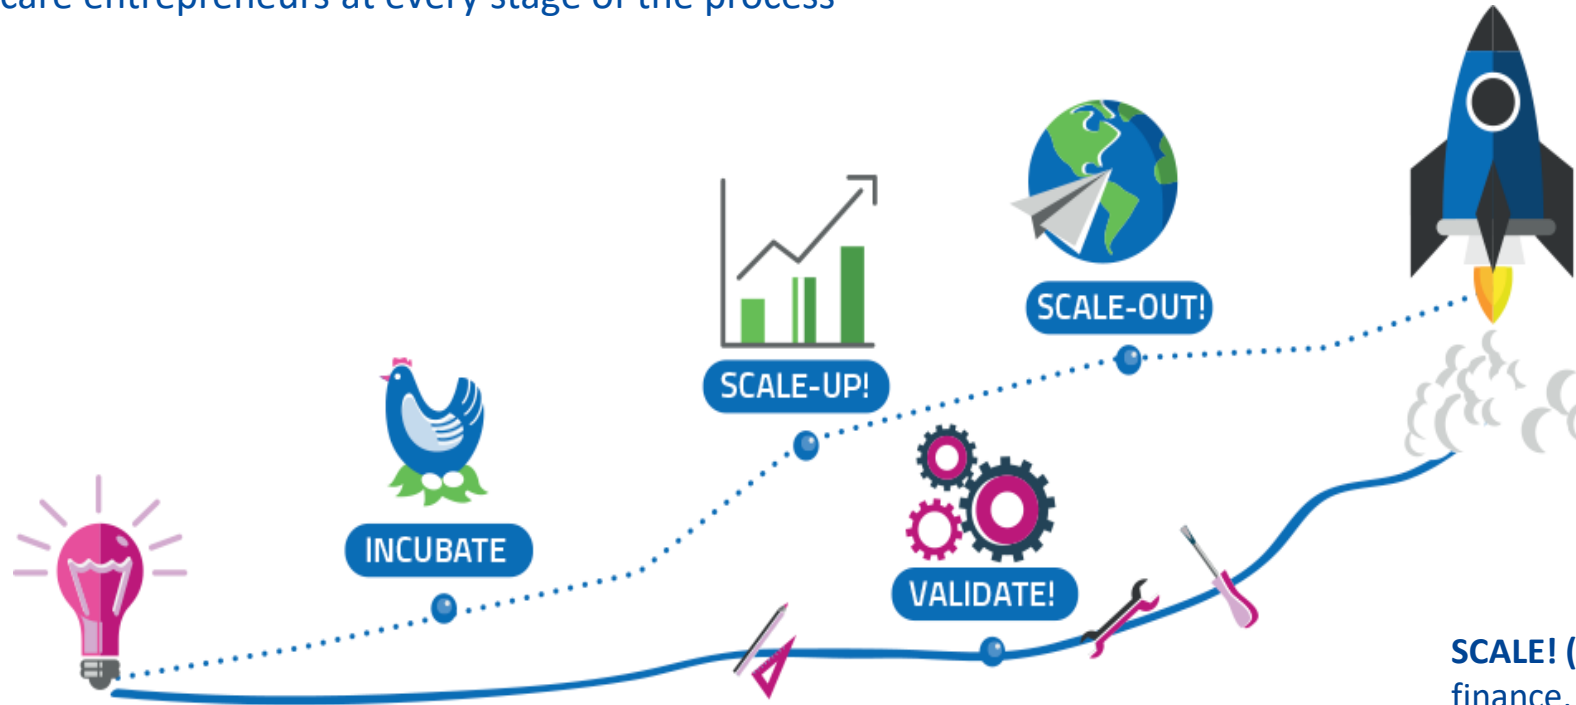

# Accelerator Opportunities for 2019

[This is a preliminar overview of 2019 BC opportunities.  
Please confirm final dates in EIT Health Accelerator website  
<https://www.eithealth.eu/accelerator> and Innostarter website for  
more recente updates]

# EIT Health ACCELERATOR

Supporting healthcare entrepreneurs at every stage of the process

**INCUBATE!** push forward innovative business ideas

**VALIDATE!** Access to data, funding, experts and open innovation ecosystems from our International Partners

**SCALE! (UP AND OUT!)** Access to finance, benefit from a strong International network and reach out to new markets

# Where do I fit?

Dozens of Accelerator opportunities at your fingertips

[I am at the idea/project stage]

## INCUBATE!

Pushing forward innovative business ideas:

**Jumpstart**

**Innostars Awards**

**Bootcamp** intensive programmes

**Venture Lab** programme

**CaixaImpulse**

### FOR WHOM:

Early entrepreneurs, scientists wanting to develop start-ups or receive innovation training and assistance.

[I have a product/service ready to be tested]

## VALIDATE!

Validating the commercial viability:

**Living Labs & Test Beds Network**

**Mentoring & Coaching Network**

**Headstart Funding**

### FOR WHOM:

Start-ups looking to:

- validate products and services.
- understand local/regional regulatory and reimbursement schemes.
- have access to market experts.

[I am ready to grow]

## SCALE!

Facilitating access to finance:

**European Health Catapult**

**Investors Network**

**Equity-Crowdfunding Platform**

Facilitating market expansion:

**Bridgehead – Incubator Network**

**GoGlobal Programme**

**Gold Track**

### FOR WHOM:

These activities focus on more mature start-ups and SMEs, to facilitate access to tools and networks for financing and market expansion

# INCUBATE!

Pushing forward innovative  
business ideas

**FOR WHOM:**

Early entrepreneurs, scientists wanting to develop start-ups or receive innovation training and assistance.

Focus on education

# EIT Jumpstarter

EIT Health, EIT Raw Materials and EIT Food jointly launch the EIT Jumpstarter to improve cross-sectorial innovation performance in EIT RIS countries along the following.

**Main purpose:** start building a business model and a pitch deck with a business model canvas, competitive landscape, go-to-market strategy, roadmap.

**For whom:** teams of individuals with an innovative idea in any of the thematic areas. Maximum 2 members per team.

## Thematic areas:

**For whom:** **Start-ups** and **SMEs** that already **have a prototype or a MVP**. Companies should be incorporated before the sub grant agreement initiation.

**Thematic areas:** EIT Health objectives: **Healthy Living, Active Ageing, Improved Health Care.**

**Grant:** up to €50 000. Funding should be spent in 2019.

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform.

**Deadline:** 27 March

**Contact:** Regional Manager and Business Creation team.

# Bootcamps

## CRAASH Barcelona

12 weeks (Apr-Nov '19)  
3 entrepreneurs per team

**Where:** Barcelona, road trips to Paris, Delft and Boston

**Thematic area:** Medical device, diagnostic, digital innovations

**Contact:** Raquel Riera ([rriera@biocat.cat](mailto:rriera@biocat.cat))

## @Delft

8 consecutive weeks (Aug-Oct '19)  
2 entrepreneurs per team

**Where:** Delft, road trips to Denmark, Belgium and Spain

**Thematic area :** Medical technologies

**Contact:** Tjarda Voorneman ([tjarda@yesdelft.nl](mailto:tjarda@yesdelft.nl))

## MedTech

8 consecutive weeks (Sept-Nov '19)  
2 entrepreneurs per team

**Where:** Germany, road trips to Coimbra, Paris, Barcelona and Lodz

**Thematic area:** Medical technologies

**Contact:** Heike Leutheuser ([heike.leutheuser@fau.de](mailto:heike.leutheuser@fau.de))

## Digital Health Validator

8 consecutive weeks (May-July '19)  
2-4 entrepreneur per team

**Where:** Dublin, road trips to Grenoble, Newcastle, Madrid

**Thematic area:** Digital Health

**Contact:** Gavan Drohan ([gavan.drohan@tcd.ie](mailto:gavan.drohan@tcd.ie))

## E-Boat

8 weeks (tbd)  
2 entrepreneurs per team

**Where:** Dublin, Lodz, Baltic Cruise Hackaton

**Thematic area:** Mobile health solutions

**Contact:** Joanna Baranowski ([joanna.baranowska@umed.lodz.pl](mailto:joanna.baranowska@umed.lodz.pl))

**Main purpose:** Training bootcamps that support applicants to discover the business potential of their businesses/business idea.

**For whom:** teams of individuals or Start-ups. Master students, Postdocs, Ph students, scientists, other.

**Regions:** Applicants from all over Europe.

Main programme in Budapest, satellite programmes are offered in Lodz (Poland) and Debrecen (Hungary).

**24 weeks** (Apr-Oct '19)

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline:** 13 March

**Contact:** Daniel Szemerey (daniel@hvlab.eu)

# Caixa Impulse

CaixaImpulse is an intensive acceleration programme for the creation of new products and companies in the health and life sciences sector.

**Main purpose:** This programme is designed to start **the translation of health research projects into a market-ready product.**

**For whom:** project leaders with **research in the health and life sciences sectors.** Established companies are explicitly excluded. 3 researchers per team from universities, hospital or non-profit organizations.

**Thematic areas:** Health, Life Science sectors.

**Grant:** between €70K – 100K (plus travel expenses for candidates from outside Spain)

## Where and When:

Barcelona

4 weeks (July-Nov '19) + 18 months for creating and implementing a valorisation and commercialisation plan aimed at making use of protected or protectable assets resulting from research

**Regions:** Spain. Other European countries are also encouraged to apply.

## Register:

[www.convocatoriaslacaixa.org/Convocatorias/login.iface?idioma=3](http://www.convocatoriaslacaixa.org/Convocatorias/login.iface?idioma=3)

**Deadline:** 18 March

**Contact:** Belen Perat ([bperat@fundaciolacaixa.org](mailto:bperat@fundaciolacaixa.org))

# VALIDATE!

## Validating products and services commercial viability

### FOR WHOM:

Start-ups looking to:

- validate products and services.
- understand local/regional regulatory and reimbursement schemes.
- have access to market experts.

Focus on validation.

# Networks

## Living Labs & Test Beds

More than 40 in Europe which can support the innovation process throughout the different phases of the value chain (ideation, co-creation, validation and scale-up), with the final goal of enhancing the conception of fully market-ready products with high added value and a high probability of success.

**Main purpose:** The programme aims to improve products/services by allowing the **validation, co-creation and ideation with the end-user in a real environment.**

**For whom:** Registered **European start-ups, SMEs and innovation projects** that **want to test and improve their product.**

**Register:**  
<http://connections.eithealth.eu/group/intranet/livinglabs>

**Deadline:** 25 January, 29 March, 24 May, 12 July, 13 September, 25 October

**Contact:** Jagadeesh Gandla ([jagadeesh.gandla@eithealth.eu](mailto:jagadeesh.gandla@eithealth.eu))

## Mentoring and Coaching Network

Mentoring and Coaching Network gathers subject matter experts and top-of-the-line mentors from all over Europe to help with specific needs of start-ups in medtech, biotech and digital health.

**Main purpose:** to **support start-ups/SMEs with specific needs.**

**For whom:** Experts willing to **mentor** and **entrepreneurs**, start-ups, SMEs and innovation projects **seeking mentors.**

**Register:** <https://eithealth.chronus.com/>

**Deadline:** ongoing

**Contact:** Jagadeesh Gandla ([jagadeesh.gandla@eithealth.eu](mailto:jagadeesh.gandla@eithealth.eu))

# Headstart Funding

Headstart provides funding for early stage companies to develop new products and services. Selected companies will work on their product launch project with support from the regional managers to access local and EIT Health networks.

**Main purpose:** support emerging companies and SMEs **to develop new products and services.**

**For whom:** Start-ups and SMEs, with regional selection, **incorporated before the sub granting agreement initiation.**

**Thematic areas:** EIT Health objectives: **Healthy Living, Active Ageing, Improved Health Care.**

## Grant:

- Maximum funding is € 50 000
- Co-investment of 25% required (Innostars regions)

 • Funding should be spent in 2019

**Regions:** Applicants from all over Europe, with regional selection.

**Register:** EIT Health Optimy platform.

**Deadline:** 27 March

**Contact:** Regional Manager or Business Creation team.

## SCALE!

Access to finance, benefit from a strong international network and reach out to new markets

### FOR WHOM:

These activities focus on more mature start-ups and SMEs, to facilitate access to tools and networks for financing and market expansion.  
Focus on growing and expanding.

# European Health Catapult

A training and competition programme that boosts the development of European top notch health start-ups.

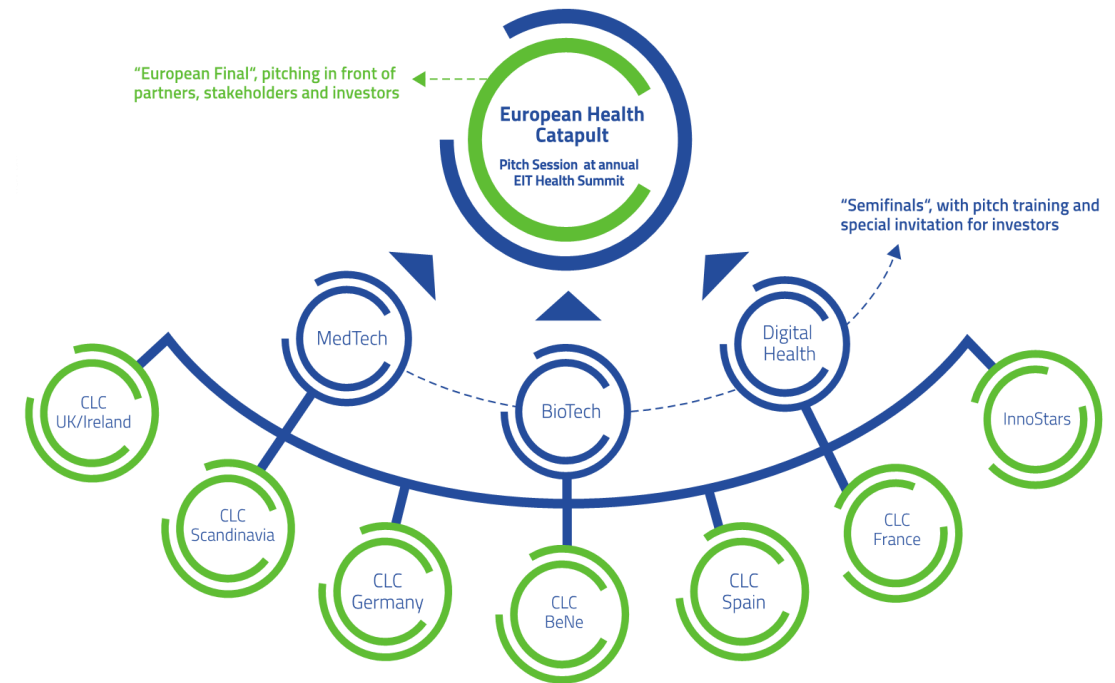

**Main purpose:** The programme **exposes start-ups** to high quality experts and **international investors** through intensive and multi-channel involvement of the whole EIT Health community.

**For whom:** incorporated micro and small enterprises (<50 employees)

- Looking for at least 500K EUR investment
- Self-valuation of at least 1Mio EUR
- Drug development projects are eligible

**Thematic areas:** Biotech, Medtech and Digital Health

**Grant:** In each category the first place will be awarded with €40 000, the second place with €20 000 and the third prize with €10 000.

**Regions:** Applicants from all over Europe.

**Register:** <https://www.europeanhealthcatapult.eu/>

**Deadline:** 27 March

**Contact:** Anna Badurska ([anna.badurska@capdigital.com](mailto:anna.badurska@capdigital.com))

# European Health Catapult

A training and competition programme that boosts the development of European top notch health start-ups.

**Main purpose:** The programme **exposes start-ups** to high quality experts and **international** involvement of the whole

**For whom:** incorporated

- Looking for at least 500
- Self-valuation of at least
- Drug development project

**Thematic areas:** Biotech,

**Grant:** In each category the second place with €20

## ADDITIONAL PERK

All eligible EHC Digital Health applications will receive a basic scholarship, every regional winner (i.e, semifinalist) will receive a premium scholarship of the One Million by One Million.

One Million by One Million (1Mby1M) is the first global virtual accelerator, headquartered in Silicon Valley. We aim to nurture a million entrepreneurs to reach a million dollars each in annual revenue and beyond, thereby creating a trillion dollars in global GDP and ten million jobs.

More info: <https://1m1m.sramanamitra.com/>

**Deadline:** 27 March

**Contact:** Anna Badurska ([anna.badurska@capdigital.com](mailto:anna.badurska@capdigital.com))

# Networks

## Bridgehead – Incubator Network

Bridgehead is a soft-landing and cross-mobility support network. It follows an individual and needs-based approach by matching suitable start-ups/SMEs to clusters, accelerators and incubators all over Europe.

**For whom:** Start-ups/SMEs looking to expand to other European markets.

**Thematic areas:** Digital Health, MedTech, LifeTech and Biotech with a digital component.

**Grant:** up to €30 000.

**Register:** EIT Health Optimy platform, starting from February.

### Deadlines:

- First cut-off: 27 February 2019
- Second cut-off: Mid May 2019

**Contact:** Aina Pascual ([aina.pascual@eithealth.eu](mailto:aina.pascual@eithealth.eu));  
Anna Badurska ([anna.badurska@capdigital.com](mailto:anna.badurska@capdigital.com))

## Investors Network

Investors' Network has been designed to match especially the need for a **first financing round** but also **follow-up investments** of EIT Health life science start-ups.

### For whom:

- **Incorporated Start-ups and SMEs looking to raise between €0.5 M - €30 M** in the next 6 months or year.
- Technical PoC or prototype done.
- Public grants and money raised (~€200K).
- High growth, turnover x2/year at least
- Ambition of Peak sales > €10 M
- Clear exit for investors < 7 years

**Register:** EIT Health Optimy platform.

**Deadlines:** Ongoing, with quarterly cut-off dates for evaluation.

**Contact:** Caroline Sai ([operations@angelssante.fr](mailto:operations@angelssante.fr))

# Go Global

Go Global provides companies with the competence needed for **growth and international expansion**. It consists of four complementary programmes addressing different regions.

**Main purpose:** to provide the start-up/SME with the competence needed for **growth and international expansion**.

**For whom:** **Mature start-ups or SMEs** with the ambition to expand their international market reach.

**Thematic areas:** **Biopharma, Life Sciences, MedTech, Digital Health**

**Register:** EIT Health Optimy Platform

**Deadlines:** 27 March

## Contacts:

Canada Programme  
Olivier Fontaine  
([ofontaine@medicen.org](mailto:ofontaine@medicen.org))

MedTech/Digital Health –  
Europe, US, China, Japan  
Olof Berglund  
([olof.berglund@sting.co](mailto:olof.berglund@sting.co))

## ADDITIONAL INFO

# Bootcamps - CRAASH Barcelona

CRAASH Barcelona is 12-week program that helps European research teams to launch successful device, diagnostic and e/digital health innovations that improve health and patient care. Teams move research to market through onsite and online mentoring with experts from CIMIT (Boston), the most experienced health accelerator in the world.

**12** weeks (Apr-Nov '19)

**3** entrepreneurs per team

Barcelona, road trips to Paris, Delft and Boston

Medical device, diagnostic, digital innovations

**Who can apply:** For soon-to-be or incorporated start-ups.

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline**

Wave 1: 11 January to 13 March

**Contact:** Raquel Riera ([rriera@biocat.cat](mailto:rriera@biocat.cat))

# Bootcamps - Yes!Delft

Unique two-month pressure cooker that allows aspiring entrepreneurs from all over Europe to discover the business potential of their MedTEch ideas.

The program helps participants to explore and validate their ideas, market potential and business model – and to launch in markets all over Europe.

8 consecutive weeks (Aug-Oct '19)

2 entrepreneurs per team

Delft, road trips to Denmark, Belgium and Spain

Health Technologies

**Who can apply:** For start-ups or teams aiming to form one.

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline**

Wave 2: 8 April to 17 June

**Contact:** Tjarda Voorneman ([tjarda@yesdelft.nl](mailto:tjarda@yesdelft.nl))

# Bootcamps - MedTech

Open to European early-phase start-up teams with ideas in medical technology.

The interdisciplinary focus of the Central Institute of Medical Engineering (ZiMT/FAU) and its broad network of health industry experts, healthcare practitioners, and digitalization research groups will allow the MedTech Bootcamp to provide focused support and matchmaking along with the EOT Health Mentoring and Coaching Network (MCN).

8 consecutive weeks (Sept-Nov '19)

2 entrepreneurs per team

Germany, road trips to Coimbra, Paris, Barcelona and Lodz

Medical technology

**Who can apply:** For MSc's, MD, PhDs, postdocs, reserachers, with an idea in development

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline**

Wave 2: 8 April to 17 June

**Contact:** Tjarda Voorneman ([tjarda@yesdelft.nl](mailto:tjarda@yesdelft.nl))

# Bootcamps - Digital Health Validator

Two-month digital health incubator hosted in Trinity College Dublin, Europe's highest-ranked for producing entrepreneurs (Pitchbook, 2017).

The programme empowers digital health entrepreneurs to validate the technology & market potential of their early stage business.

**8** consecutive weeks (May-July '19)

**2-4** entrepreneur per team

Dublin, road trips to Grenoble, Newcastle, Madrid

Digital Health

Trinity  
College  
Dublin

The University of Dublin

**Who can apply:** Digital health start-ups.

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline**

Wave 1: 11 January to 13 March

**Contact:** Gavan Drohan ([gavan.drohan@tcd.ie](mailto:gavan.drohan@tcd.ie))

# Bootcamps - E-Boat

E-Boat bootcamp is an accelerator for startups with innovative mobile health solutions. It is a unique programme consisting of a distance learning module and of a Cruise Hackathon Formula in the Baltic region to validate, develop and launch products in the European market.

E-Boat drives change and transform the health services with m-solutions.

8 weeks (TBD)

2 entrepreneurs per team

Dublin, Lodz, Baltic Cruise Hackaton

Mobile health solutions

**Who can apply:** incorporated start-ups in mHealth

**Regions:** Applicants from all over Europe.

**Register:** EIT Health Optimy platform

**Deadline**

Wave 1: 11 January to 13 March

**Contact:** Joanna Baranowski

([joanna.baranowska@umed.lodz.pl](mailto:joanna.baranowska@umed.lodz.pl))
